

1116 - 4th St. N. W.

Washington D. C.

My dear Dr. Hatcher

I enclose in my package
of the Bolander molles - In
addition to what you
wanted I sent a specimen
of *Peckera hantzschii* on
account of its great rarity.

To-day we have had in
the installation of
the West and may have
some things that you
would like later.

Do you want the Sweden
sickness and debates?

Respectfully
Ellen West Lathrop

March 3-1891.
